Career Objective

Motivated computer science graduate with a strong foundation in programming and software development. Seeking to contribute technical skills and a passion for problem-solving in a dynamic work environment.

Education

B.E Computer Science and Engineering

DMI College of Engineering, 2027

CGPA: 7.9

Skills

- Python
- HTML
- CSS
- Java
- C

Projects

1. Chatbot

Technologies Used: Python, HTML, CSS

Developed a simple web-based chatbot using Python for backend logic and HTML/CSS for frontend design. The chatbot is capable of responding to user queries, providing predefined responses, and demonstrating basic natural language understanding. This project showcases integration of frontend and backend systems to create an interactive user experience.

2. Personal Portfolio Website

Technologies Used: HTML, CSS, JavaScript

Designed and developed a personal portfolio website to showcase academic background, skills, projects, and contact information. The site features responsive design, smooth scrolling,
